As part of the Alexandra Basin Regeneration Project, Alexandra Quay West/Ocean Pier Berths 31/32, new quay wall works are planned to be completed. It is expected that these works will take place from the 27th March 2017 to the 31st October 2017. (Circa 7 months’ duration)

The works will incorporate sections of both Berths 31 and 32 at the North East corner of Alexandra Basin West and Ocean Pier.

The works generally consist of the construction of approximately 120m long new quay wall, an anchor wall set-back 30 m from the new quay wall, two new bankseats (one on Berth 31 and the one on Berth 32), mechanical and electrical services installations and reinforced concrete slab.

New Linkspan No. 6, will be incorporated in the works and will be interchangeable between the bankseats on Berths 31 and 32.

The following Vessel will be utilized during the works:
Naomh Lua 2.

All craft will monitor Channel 12 continuously and show the required lights and shapes. All vessels should pass at slow speed and make due allowance for this operation.

VTS will keep all vessels updated and advised of any relevant information.
